## Facts about Spanish to English translations

### Old Languages, New industry

The translation industry is very new and its emergence as a result of globalization and invent of the internet. Ever since the internet was created and given full reign over the human discourse; translation of content for various reasons became an everyday thing. So, way before the changes in the global consciousness, translations were rarely important. This means that there wasn't any need to well-define this industry.

### How it is Nowadays

English to Spanish translation certification nowadays is connected to the money in one's pocket, and not always represents an evaluation of competence. There are many translation companies in the market that are certified even though they may not be up to the mark. The British court only allows translators in legal proceedings that are certified by a person who can take affidavits and administer oaths.

## Solution and Requirements

The great majority of the providers of English to Spanish translation certification are not as accredited or accurate as they are set out to be. So you must make sure that you use well-done translations for your legal documents. Always try to use proper and authentic translation of the original content which will hold up in a legal court. You also have to ensure that your English to Spanish translation certification is done according to the rules and regulations of the office requiring the translation. So, the chosen company must have a good reputation since there are a lot of services that will not be up to the mark.

## Spanish Certified Translation

Certified translation is very popular in the translation industry. In the US, certified translations are required for legal matters which may involve court cases in some other instances like immigration, that's why it is very important to make sure that the translation service is good. However there are a lot of other terms besides the certified translation such as sworn translation, notarized translation and legalized translation.
